

Choose API Delevan

...to work with you to provide unique magnetic components for your next circuit design.

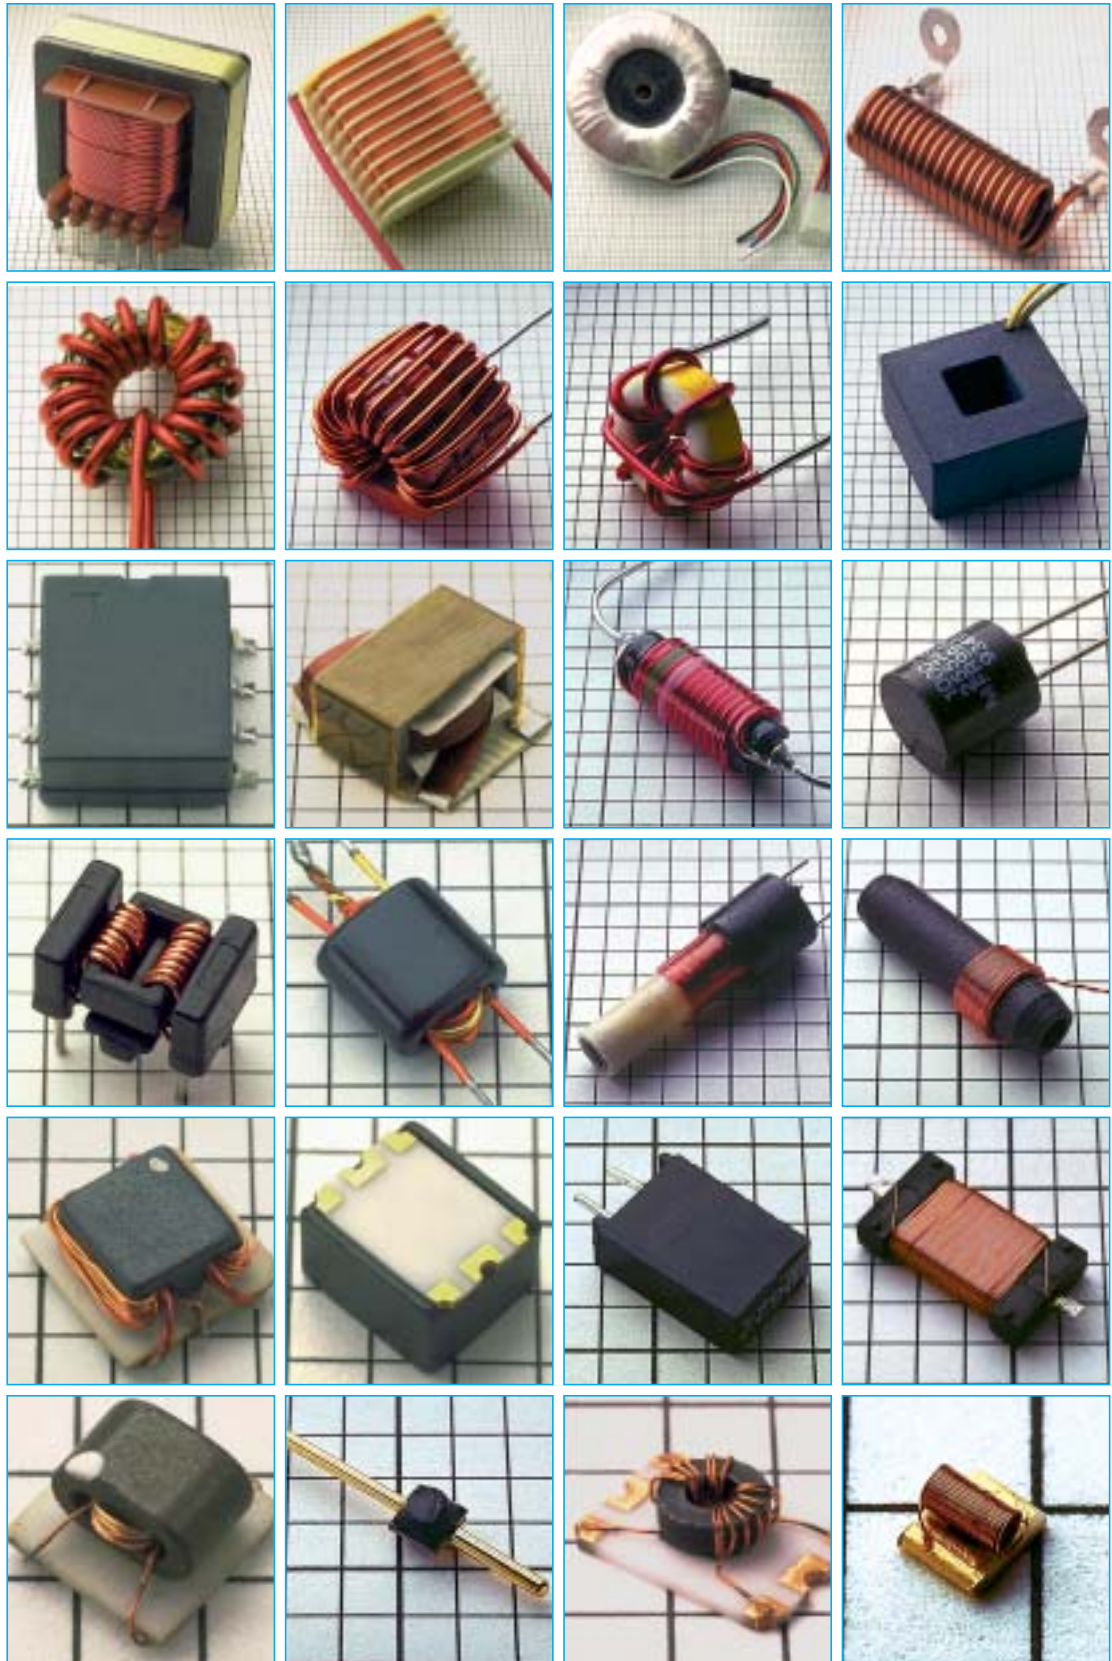

As recognized industry leaders in developing specialty niche and custom components, our design and application engineers are well equipped to offer the right solutions for your specific needs.

From prototype to production quantities, our in-house resources afford the opportunity to reduce design to market cycles for your next "special" requirement.

The product array shown here is just a small sample of our vast capabilities of product design.

Other Value-Added Services...

- ▶ Environmental & Life Tests
- ▶ Custom reel taping
- ▶ Cut or formed leads
- ▶ Color coding
- ▶ Custom marking
- ▶ "Q" meter repair and calibration
- ▶ Correlation standards
- ▶ Test fixtures

Actual size of grid on gridpaper in all photos above is 1/10"
